REACH Declaration – Certificate of Compliance

About UE Regulation EC/1907/2006 - (REACH – Registration, Evaluation, Authorisation and Restriction of Chemicals), please take note of the following points:

- Vibrostop s.r.l. a socio unico can be qualified as “downstream user” and “articles producer”, so we don’t supply chemicals and there is no obligation to register anything or to draft Safety Data Sheet
- Lead may be used as an alloying element in Conic, Conic Marina, Metalflex, GSA, PFA, PGM, VPX and VPQ series models in machining steel containing up to 0.35% lead by weight and in hot-dip galvanised steel components in batches containing up to 0.2% lead by weight
- Copper alloys containing up to 4% lead by weight may be used in SUPERFLEX, TSPF and some special models
- this CoC is valid to updated list on February 4th 2026, available at the following link: <https://www.echa.europa.eu/candidate-list-table>
- this CoC is based on vendor analyses and/or material certifications.
